NEO

More than a plug

YOUR PARTNER FOR INTELLIGENT DISTRIBUTION SYSTEMS

When it comes to selecting and equipping suitable solutions and products for power distribution in the low voltage range, we are the right contact for you. At WALTHER-WERKE, we rely on comprehensive expertise, many years of market and industry experience, and enthusiasm for forward-looking solutions - and have been doing so since 1897. Our solutions and products are characterized by high quality, technological know-how and customer-oriented user benefits. When developing new products, we focus on innovative and sustainable solutions that are at the cutting edge of technology and offer the user absolute added value.

With over 500 employees worldwide, 60 international sales partners and 6 subsidiaries, 1 of which is in Germany and 5 of which are abroad, we are represented in all core markets. We develop, manufacture and distribute CEE plugs and sockets, industrial connectors, power distributors and charging solutions for electromobility worldwide.

In the cooperation with our customers, we rely on a strong, trusting partnership. We achieve this by being close to our customers and the industry at all levels. We always have an open ear for all the needs and concerns of our customers. Our customers can trust that we know their requirements precisely and offer solutions that are tailored to them. This is how we create trust and a good basis for a long-term partnership.

KEY CONTACTS

GROUP OF COMPANIES

- 500 employees worldwide
- 4 locations in Germany, including 1 subsidiary
- 5 subsidiaries (in Europa and the USA)
- 60 international distribution partners

SOLUTIONS

Intelligent distribution systems for:

- Electromobility
- Construction
- Industry

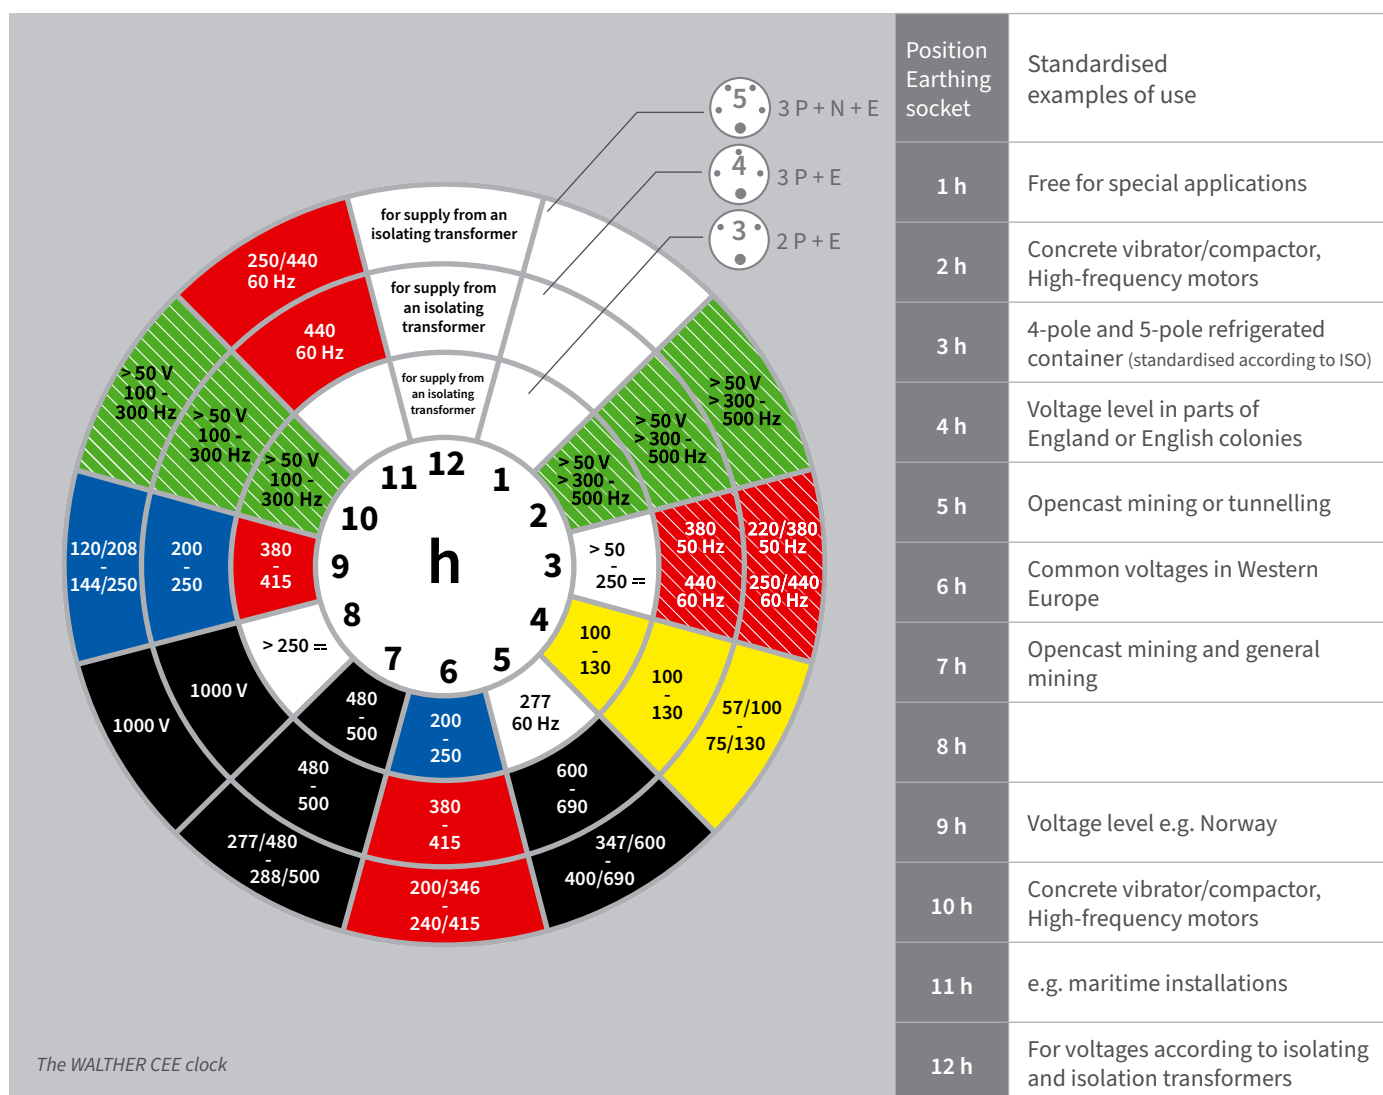

PRODUKT HIGHLIGHTS

- CEE plugs and sockets NEO
- Construction site power distributors
- Socket combinations
- Wallboxes and charging columns
- IPD software solution

THE CEE CLOCK ACCORDING TO IEC 60309-1

The international standard for CEE plugs and sockets is defined in the IEC 60309 standard. This was derived from the CEE17 standard, which was drafted by WALTHER-WERKE in the 1960s. IEC 60309 describes the requirements for plugs, sockets, cable couplings and device plugs and sockets for industrial applications.

The specified voltages and frequencies are prescribed for use in accordance with IEC 60309-1 (Series I). This standardisation means that the same plug-in system can be used for machines and systems worldwide. The colours of the individual standardised voltages and frequencies are recommendations of the standard and serve for identification. Important to know: The shaded clock positions (2h, 3h, 10h) are only standardised for 16 A and 32 A.

NEO – THE EVOLUTION OF CEE PLUGS & SOCKET DEVICES

USER-FRIENDLY ERGONOMICS

- Less expenditure of energy
- Simple & safe operation

DUST & SPLASH PROTECTION

- Increased standard protection category IP54

ROBUST MATERIAL

- Housing made of PA66 material guarantees high stability
- High-heat resistant contact carriers

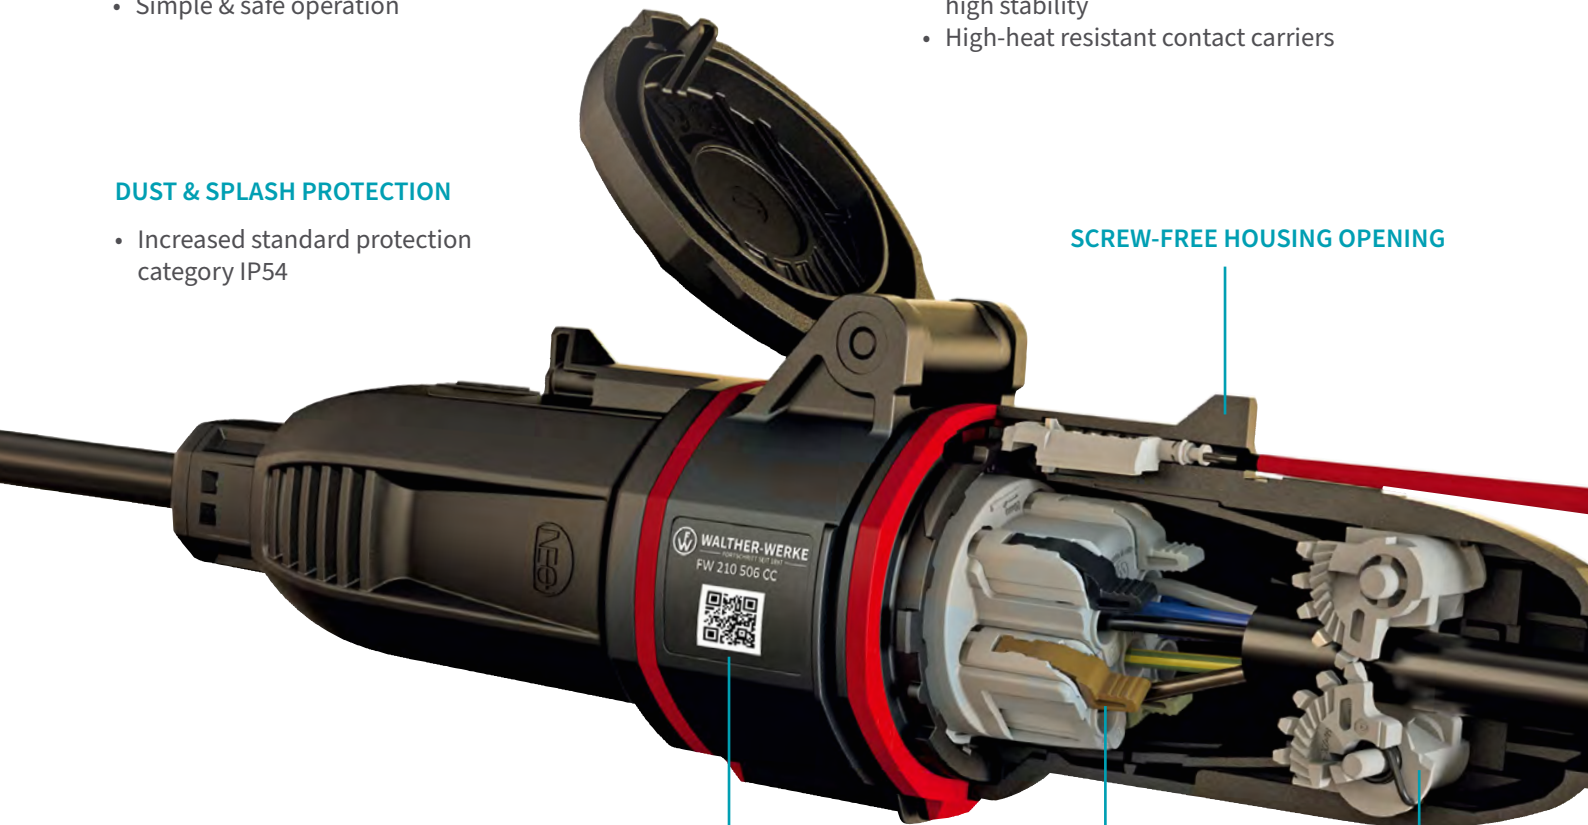

SCREW-FREE HOUSING OPENING

QR CODE

- Quick access to current product information and assembly instructions

SAFE & MAINTENANCE-FREE CONNECTION TECHNOLOGY

ONE-TOUCH CLOSURE SYSTEM

Our range of CEE plugs and sockets is suitable for different areas of application: for industrial applications, in construction and for the event and leisure sector. Depending on the requirements, we offer the right solution.

Thanks to optimised functionalities, NEO offers maximum user benefit.

PRODUCT HIGHLIGHTS

Screw-free housing opening

A push on the locking mechanism releases the connection between the front and rear parts of the plug.

One-Touch closure system

Two work steps combined in a 1/4 turn:

1. Connection of front and rear part of the plug
2. Automatic activation of the internal strain relief

Safe & maintenance-free connection technology

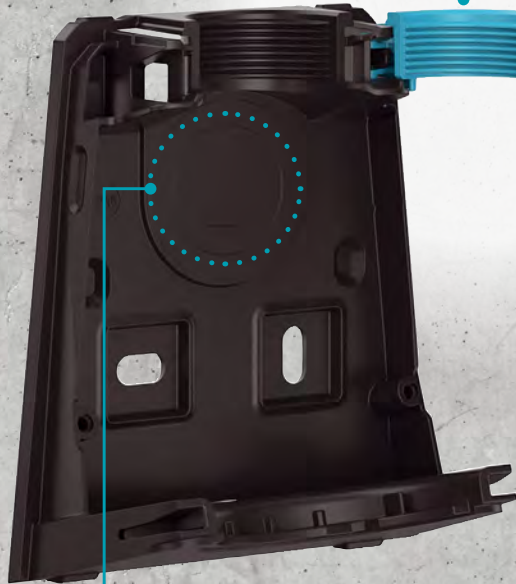

- Screw-free & convenient operation through connection terminal lever (CAGE CLAMP®) from WAGO®. Frequent reconnectability and time saving during assembly.
- Screw contact with Torx screws for optimum power transmission and increased service life.

EASY TO INSTALL. INTUITIVE. FLEXIBLE.

Simple and flexible
cable entry

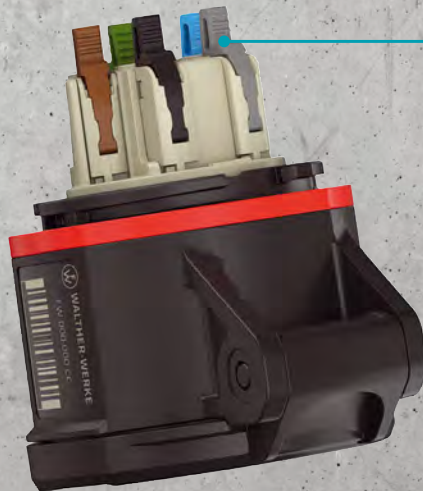

eClip easy cable entry through
hinged threaded connector

Intuitive housing
opening and easy
operation

Easy installation and
cable handling

Shortened wiring time
thanks to maintenance-free
spring clamp technology
(CAGE CLAMP® by WAGO®)
and flexibility in the choice
of copper conductors.
